

realize your clients' **idea of home**

Every home is a unique expression of the lives lived there. A reflection of your clients' tastes and passions. Your design realizes their dream. Our technology makes it a reality. Smart home technology that is intuitive and simple. Instantly responsive to touch or the sound of your clients' voice. A complete smart home system engineered to become invisible, so all that remains is the experience. Their experience. Their home. Just as they imagined.

One company designs, manufactures and supports every component of that system. One company where design and technology meet. Beautifully.

CRESTRON HOME™ the smart home. **perfected.**
